### ***DOUBLE PATENTING REJECTION***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

---

Claims 6-8 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of copending Application No. 09/631,179. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only differences are that the '179 application claims the insertion of the slider to the zippers of packages containing products while the instant application claims the insertion of the sliders to zippers of connected packages. It would have been obvious to one skilled in the art to eliminate the product-containing limitation from claim 6 of the copending application. Furthermore, it would have been obvious to one skilled in the art to use connected packages in the process of claim 6 of the '100 application since the process of making packages from connected bags is well known in the art and would speed up the operation of the process.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***REJECTIONS OF CLAIMS BASED ON PRIOR ART***

**Claim 6-8** are rejected under 35 U.S.C. ' 103 as being unpatentable over the patent to Lems (4,654,878) or Sanborn (4,437,293) in view of Thieman or Laguerre. The patents to Lems and Sanborn show packaging operations, which comprise of providing a series of connected packages having a recloseable zipper and feeding the packages to a filling and sealing station. The Lems operation lacks the use of sliders. The patents to Thieman and Laguerre disclose the methods of providing a folded film web having recloseable zippers, providing a supply of sliders, removing a slider from the supply and inserting it on to the zipper. It would have been obvious to one skilled in the art to provide sliders to the zipper of Lems or Sanborn as shown by Thieman or Laguerre to provide a bag opening aid for the consumer.

### ***RESPONSE TO APPLICANT'S ARGUMENTS***

Applicant's arguments with respect to the claims have been considered but are moot in view of the new rejection..

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action. **6/18/01**

**The below text replaces the pre-printed text under the heading, "Information on How to Effect Drawing Changes," on the back of the PTO-948 (Rev. 03/01, or earlier) form.**

**INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

**1. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the Notice of Allowability. Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136(a) or (b) for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit the drawing corrections within the time period set in the attached Office communication. See 37 CFR 1.85(a).

Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
